

10 July 1980

MEMORANDUM FOR: Deputy Director for Science & Technology  
Deputy Director for Operations

FROM: Director of Central Intelligence

25X1 I signed off on your plan [redacted] I failed to make one note on  
it and that is that I would like you to continue to explore retrieval  
methods other [redacted] 25X1  
In my last memo to you on this subject, I gave you my own Rube Goldberg  
suggestion--I do think we need to explore other such ideas that are perhaps  
more sound. I have grave reservations about the viability of a program  
25X1 that calls for [redacted]. I have grave doubts on being  
able to sell a program that has this requirement. (TS/NF)

[redacted] 25X1
